

Abhigyan'26

Technical Events:

1) Research Quest - 250 per team. (3)

3rd Year Coordinators: Gokul E P (ECE), Gokul K (EE VLSI)

2nd Year Volunteers:

Description:

This is a paper presentation event where participants can present their innovative works in Quantum Technologies, including areas such as quantum computing, quantum communication, quantum electronics, quantum-AI, and other emerging applications.

The scope is not limited to Quantum Technologies. Participants are also welcome to present their novel research and innovative works in any other field. Participants will be asked to submit their abstract prior to the event on a notified date. The participants will be judged on their innovativeness, presentation skills and novelty.

2) Quantum Imprint - 140 per team (2)

3rd Year Coordinators: Harini S (ECE DS), Jaffrine Refina R (ECE DS)

2nd Year Volunteers:

Description:

This event is a creative poster-making challenge where participants will be given a specific theme or technical concept and asked to visually represent it through an original poster. The activity will test their creativity, design skills, conceptual understanding, and ability to communicate an idea effectively through visual elements. Participants will work within a given time limit, and the entries will be evaluated based on creativity, relevance to the theme, visual appeal, originality, and clarity of presentation.

3) Binary Bingo 150 - per team (3)

3rd Year Coordinators: Bhawana (ECE), Anju (ECE)

2nd Year Volunteers:

Description:

Bit & Brain is a two-round technical game designed to test participants' number-system skills, speed, teamwork, and creativity. In Round 1 – Number System Bingo, participants convert numbers announced in binary, octal, or hexadecimal into decimal and mark the corresponding numbers on their Bingo sheet to complete the required pattern. In Round 2 – ECE Draw & Guess, participants work in teams where one member draws a whispered ECE-related word without speaking or writing, while the teammates try to guess it within 30 seconds. The team with the highest score in Round 2 wins, making the event a fun combination of technical knowledge, quick thinking, communication, and teamwork.

4) Data Heist 160 - per team (3)

3rd Year Coordinators: SriRam (ECE), Devraj (ECE)

2nd Year Volunteers:

Description:

A high-stakes digital investigation where teams must uncover the truth hidden within a massive trail of IoT data, system logs, network traces, technical documents, device telemetry, and digital evidence. Nothing tells the whole story—participants must connect fragmented clues, identify false leads, reconstruct the chain of events, and expose what really happened.

5) Quantum Bits 120 - per team (2)

3rd Year Coordinators: Swetha Sankari (ECE DS), Swetha (ECE DS)

2nd Year Volunteers:

Description:

Quantum Bits is a three-round technical quiz designed to challenge participants' technical knowledge, analytical thinking, and ability to connect concepts across quantum technology, electronics, communication, computing, and emerging technologies.

Non Technical Event:

1) Byte Hunt - 155 per team (3)

3rd Year Coordinators: Nethra (ECE), Nithilam (ECE)

2nd Year Volunteers:

Description:

Clues will be hidden all over the campus and it is upto you to find the clues and crack them.

Hints will be provided. Only quick thinking, communication and speed can lead your team to the ultimate treasure!

2) Electro Scribble - 110 per team (2)

3rd Year Coordinators: Aradhana (ECE DS), Namritha (ECE DS)

2nd Year Volunteers:

Description:

Participants compete in teams of two, where one player draws an electronic component without using words, letters while their teammate races against the clock to guess the component correctly under limited time.

3) IPL Auction - 200 per team (4)

3rd Year Coordinators: Varun Raj (ECE), Tharunika (ECE)

2nd Year Volunteers:

Description:

An IPL-based quiz will be conducted to shortlist the top 10 participants for the main event. The shortlisted participants will then take part in a live IPL auction, where they build their own teams using a fixed virtual budget.

The event combines cricket knowledge, strategy, bidding, decision-making, and budget management, making it competitive, interactive, and entertaining.

4) Free Fire - 190 per team (4)

3rd Year Coordinators: Kaushik (ECE), Pranav (ECE DS)

2nd Year Volunteers:

Description:

The Fire-Free Tournament is a 4-player team-based competition featuring Battle Royale (BR) followed by Clash Royale (CR). In the BR round, teams will compete for survival and points, with 5 points awarded for 1st place, 3 points for 2nd place, 2 points for 3rd place, and 1 point for every kill. Based on the BR results and eliminations, the qualifying teams will advance to the CR round, where they will compete under No Roof, Unlimited Ammo, Unlimited Walls, and Goal Wall rules. In the final CR stage, 1st place will receive 5 points, 2nd place 3 points, and 3rd place 2 points. The team with the strongest overall performance will be crowned the Fire-Free Tournament Champion. All participants must maintain fair play and sportsmanship throughout the tournament, and the use of cheats, hacks, glitches, exploits, or any unauthorized assistance will result in disqualification.

5) Muted Mayhem: - 135 per team (3)

3rd Year Coordinators: Lathika (ECE DS), Lakshmi (ECE DS)

2nd Year Volunteers:

Description:

Get ready for a chaotic battle of lip-reading, guessing, and hilarious misunderstandings! In Muted Mayhem, one teammate wears headphones with loud music while the others mouth out words or phrases for them to guess within a limited time. With communication completely muted, only teamwork, expressions, and quick thinking can lead your team to victory!

6) Connections/Movie Mastermind - 170 per team (3)

3rd Year Coordinators: Karthikeyan (ECE DS), Pugal (ECE DS)

2nd Year Volunteers: Rwiju Pravan (ECE b), Shivani Prakash (ECE b)

Description:

A three-round movie-based challenge where participants put their movie knowledge, quick thinking, deduction, and strategy to the test. Teams will identify movies through cast images and tricky plot clues before the top 4 teams advance to an intense director-based bidding challenge, where they compete to name movies and maximize their scores.
